Arrests of Counterfeiters.

The statements we gave in our paper on Saturday, taken from the Lafayette Courier and Cincinnati Commercial, in reference to the discovery and arrest of a number of men in the above named counties of this State, who have hitherto occupied respectable positions in society, for the crime of dealing in and passing counterfeit bank notes and bogus coin, are in the main true. Some of the citizens of Henry and Rush counties, who had occasion to suspect that these operations were going on in their midst, secured the services of Mr. William Reany, of Cincinnati, an accomplished detective police officer, to fix the crime and arrest the guilty parties in these nefarious transactions. Enough information has been developed to make certain that there is an extensive and well-organized association throughout this State, Ohio, and Kentucky, composed of men who stand fair, who are engaged in the selling and passing of counterfeit and bogus currency.

The first individual arrested was Dr. Patterson, of Carthage, Rush county, who has had an extensive practice in that section of the country. He admitted, after his arrest, that he had been engaged in the business for two years, but it is supposed that it has extended back five or six years. He engaged in the business first, he says, for the purpose of detecting some men whom he supposed were engaged in it, but finding it profitable, he continued it. He was decoyed to sell some counterfeit \$10 bills on the Northwestern Bank of Virginia, a dangerous counterfeit, and after the sale of \$50 to two men was arrested, taken to a private room in a hotel and ironed. Mr. Reany asked the Doctor where the balance of the \$100 was he had agreed to sell, and he informed him it was under the cover of a stand in his office. It was found there, with other packages concealed, amounting to \$250.

A trap door into an attic story was opened, the officer reached up, found three bottles marked quinine, in which were found rolls of counterfeit bank bills. Rolls of old newspapers were also found there, containing 120 bogus half dollars. A cellar was discovered under his bed-room, the only access to which was a small trap-door in the floor at the side of the bed, covered by a carpet. It was a complete dungeon, without light, but fitted up with table, chairs, &c., for business. The officers found several in various parts of his office packages of counterfeit bills and bogus coin. Letters were found in his possession from different members of the gang containing information, in which the real meaning was concealed in slang phrases well known to the profession.

The Doctor was examined before a justice of the peace in Rushville, re-arrested in the sum of \$3,000, and committed in default of bail.

The next person arrested was Dr. Rogers, of Knightstown, a man with a large family and respectfully connected. He has no business, but represents himself as a sporting gentleman. He had also been engaged in selling Northwestern Bank of Virginia bank notes. In searching him they found a \$10 new counterfeit bill on the Hatter's Bank of Connecticut. He was secured by the officers.

The next one arrested was Perry Bennett, of St. Omar, who has been a terror of the country. He was arrested by Mr. Reany and his posse, and \$20 in new counterfeit bills on the Reading Bank, Pennsylvania, were found upon him. He was committed for having counterfeit money in his possession.

Dr. Louis Frazee was arrested in Jonesville, Bartholomew county. When the Doctor was arrested he attempted to conceal a quantity of bogus half-dollars behind a log. He acknowledged his connection with the gang, but said that he had been drawn into it by Patterson. He was handed over to United States Commissioner Orr, of this city, who committed him in default of \$2,000 bail.

Dr. Allen Robinson was next arrested at Manchester—a man near sixty years of age. He has before been arrested for dealing in counterfeit bank notes, but, turning State's evidence, was discharged. On his person and in a bureau drawer in his house were found counterfeit bills and bank notes from ten cents up to \$50. The following is a description of the bank notes: Northwestern Bank, Virginia, denomination \$10, some new, and others soiled for circulation; State Bank of Indiana, \$10's; Northern Bank, Kentucky, \$10's; Bank of Corning, New York, \$10's; Ohio Stock Bank, \$5's; Merchants Bank, Hartford, Connecticut, \$5's; Exchange Bank, Hartford, \$1's; Farmers' Bank, Indiana, \$10's; North Carolina Bank, \$50's. Three bogus half dollars were found in his office, beside a galvanic battery, just prepared for circulation. Counterfeit dimes and also spurious gold dollars were discovered about his premises. The whole amount found was \$742.70. This man was taken before the United States Commissioner at Rushville and committed in default of \$2,000 bail.

Crucibles for melting were found at Dr. Robinson's, but no dies. A lot of new cents of the late issue were found in his possession, which were undoubtedly intended to be used for making composition for counterfeit coin. Mr. Reany says that new counterfeit bills were put in circulation the same day in Rush, Henry, Decatur, and Bartholomew counties; that they were in Kentucky and Indiana, thus proving the extent of the organization, and the perfect understanding the members of the gang have with each other.

A Western "Harvest Home."—The following paragraph from the Chicago Tribune of Tuesday gives an idea of how harvesting is done at the West:

"A friend of ours says that one day last week he went upon top of a hill called Mt. Zion, six miles from Janelville, Rock county, Wis., and counted on the surrounding plain one hundred and sixty-four horse-power reaping machines busily cutting down wheat. There were one thousand men, women, and boys following after, binding and sheafing up the golden sheaves. It was a sight worth seeing, to behold the grain falling and being gathered up at the rate of two hundred acres per hour!"

A Great Tunnel.—It is proposed to connect the Arroyo river, near the town of Darien, with the Pacific Ocean, by means of a cutting, 63 miles in length, 200 feet in breadth, and 90 feet in height, above the water.

The Main Line Injunction Cases—The State Paying the Expenses.

The public remember the famous proceedings instituted by HENRY S. MOTT to prevent the sale of the Main Line. One of the bills presented to the Court was from Mr. MOTT, as a stockholder in the Pennsylvania Railroad Company. Another was from him as a holder of the Commonwealth. A third was from him and others as Canal Commissioners. The attorneys in these cases were WM. M. MERRITT, CHARLES R. BUCKLEW, Wm. L. FIRST and JAMES H. WALTON. By whom each was employed, and for what specific purpose, the public are ignorant. But all appeared, and took part in the cases. The Court heard the counsel patiently, deliberated upon the subject, and gave an opinion, under which the sale was effected. Since that time the line has passed from the possession of the State.

It has occurred to many persons at different times to wonder from what quarter funds to pay these expenses were to be derived. We recollect hearing at the time that Mr. MOTT had collected considerable sums from the office-holders on the line; and this appeared probable, for they were about the only persons sufficiently interested in defeating a sale to warrant the payment of money for the maintenance of the suits. But this reliance proved inadequate, and we learn that the State Treasury has been plundered, that ample compensation might be made to the attorneys engaged in the case. We say, plundered! for all illegal payment from the Treasury is as so much money plundered from the people.

We are informed reliably that, within three weeks, claims have been presented to the State Treasury from two of the counsel—MERRITT and BUCKLEW—for services rendered in the suits referred to. The bill of the former was \$10,000—of the latter \$750. When the claims were first presented, the Auditor-General—JACOB FAY—declined paying them, upon the ground that no appropriation had been made for that purpose, and that payment of them would be a violation of his duty. He maintained this position for some days. Subsequently he was induced to abandon it, and allow the claim.

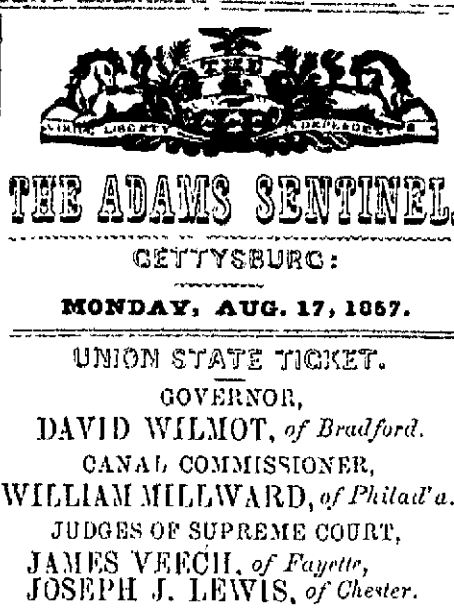

The State Treasurer, HENRY S. MAGRAW, promptly paid it, on the 25th of July. The counsel referred to were not employed by the Commonwealth. The suits in question were not authorized to be brought by the Commonwealth. They were the individual acts of the persons engaged in them, and the Commonwealth was in no sense responsible for the money claimed. In addition, the act passed by the last Legislature relative to the office of Attorney General, which became a law before these legal proceedings were instituted, makes that officer the sole legal officer of the State, and expressly prohibits the retaining of other counsel where the State is a party. Of course, no other authority than the Legislature has power to nullify this provision and entail expenses upon the State, without the consent of the representatives of the people. The law referred to was enacted to abolish the system of pet counsel and immense fees, and was supported by honest men belonging to both parties. We regret to see the Canal Board, the Auditor General and the State Treasurer not only attempting, but actually setting at naught this admirable enactment.

We wish the public to understand this proceeding. For many years the people of the State have decried the Sale of the Main Line. In 1844, a vote was taken upon the subject, and the majority in favor of a sale was 20,000. Three bills have at various times been passed to effect that object. No sale occurred under either, and the people continued to be burdened with the ownership and management of the improvements. Last winter another bill for the sale passed the Legislature, and was approved by the Governor. As soon as it became probable that sale would be made under the bill, sundry politicians and office-holders set to work to thwart the people and the Legislature. For this purpose they invoked the aid of the Supreme Court of the State, and employed the ablest counsel they could demand. Personal and political interest was the motive for the effort, which was unsuccessful. A month after, the treasury of the State is assailed for the payment of these expenses—expenses not incurred by the demand of the State, not authorized to be incurred by any competent authority, for which the State is not responsible, and which the officers of the State should not have paid. They did so, not only in the absence of justifying law, but in violation of law, and in shameful disregard of their duty and of the rights of the people whom they should represent. For a quarter of a century every species of fraud has characterized the management of the public works. This last act is unparalleled even in that disreputable history. We deeply regret that the counsel in the case preferred such an account, and more deeply, that high public officers should consent to its payment. The public will not approve of such a misuse of their funds, and we trust that the offending officers will be made to feel the pressure of an outraged constituency.

Death of a Heroine.—The St. Joseph (Mo.) Gazette announces the death of Madame Ceille Roy, the widow of John Baptiste Roy, of St. Joseph. At the time of her death she was seventy years of age. Her history is intimately connected with that of Missouri. During the war of 1812 her husband and herself made a noble resistance to the attack of the Indians against a block-house occupied by them at Ote case Dession, in Callaway county. A large number of the Indians attacked them. Three times were they repulsed, Roy and his wife keeping up an incessant fire upon them. Madame Roy not only loaded the guns used for their defence by Roy, but she used the rifle herself, and the Indians, when they retreated, left thirteen of their warriors dead within the stockade of the fort.

A Large Hay Field.—Mr Guthrie, of Chicago, Illinois, has one field of 850 acres of hay, enclosed with good pine boards and cedar post fence. He is cutting from other fields at least 1,000 acres besides, and expects to cut and press this year 5,000 tons of hay.

It is estimated that there are 587 languages and general dialects in Europe, 937 in Asia, 226 in Africa, and 1265 in America, in all nearly 3000.

A Camp Meeting will be held at or near Rock Chapel, three miles from Petersburg (Y S), to commence Aug. 28th, and close on the following Thursday.

We learn that the "Independent Blues" intend having an encampment and picnic affair on the banks of Marsh-creek, commencing on Friday next, and continuing until Saturday evening.

The house of Mr. Abraham Hoffman, of Menallen township, was entered by some villain, during the forenoon of Monday week, while Mrs. Hoffman was taking out the "ten o'clock piece" to the field, and robbed of \$135 in cash, and some promissory notes. The same night the notes were found in a stone pile near the house, but none of the money. No clue has yet been found to the robber.

The steamer Central America arrived at New York on Wednesday last, with California dates to the 20th ult. The news is unimportant. She brings \$1,250,000 in gold.

Hon. James S. Rollins has been elected Governor of Missouri. He is an old-fashioned Clay Whig in politics, and has recently acted with the American party. He ran, however, in this canvass, as an Independent, supported by the great body of the Americans and also of the Emancipationists. In public speeches he made the abolition of Slavery in the State a principal topic, and discussed it with a decided leaning toward Gradual Emancipation.

The election in Kentucky has resulted in the choice of eight democrats and two Americans for Congress. The democratic candidate for State Treasurer, is elected by a majority ranging from 10,000 to 15,000. In the State Senate there will be a tie. In the lower house, the democrats will have a majority of about 25.

The steamer Europa sailed from Boston on Wednesday last, with \$800,000 in specie.

Hill has been refused to the celebrated Mrs. Cunningham, at New York, on the charge of having a sham birth, in order to get the Burdell property, and she has been sent to prison. Her eldest daughter, who adhered to her so closely in her former difficulties, has now become so disgusted with this last act of her mother, that she will not live with her as long as she seems determined to play such desperate games with the hope of gaining wealth.

The sinking of the great Atlantic telegraph cable is now in process. Two steamers, the Niagara and Agamemnon, have been conveying the cables along the route. On the 31st ult., the cable, which is 25,000 miles long, was joined together, and messages sent through its entire length in less than a second!

Death's Doings.—Two of President Pierce's Cabinet officers—Messrs. Marcy and Dobbin—have died within six months of their retirement; his Postmaster General has also lost his wife; and General Rusk, of Texas, who was elected President pro-tempore of the State, at the close of his term, is also among the dead. Rarely do we find so large an amount of mortality in so short a time in a political family.

Mount Vernon.—One or more of the Masonic Lodges of Richmond, have organized a plan to purchase Mount Vernon. It is to get the subordinate lodges to contribute \$1 for each member. The price asked for the Mount Vernon estate is \$200,000, and the Masonic statistics show that the order numbers three hundred thousand; so that if all the lodges in the Union accede to the proposition—and the probability is that they will—the purchase of Mount Vernon may be looked upon as a fixed fact. The suggestion, as given out, does not stop here. When the land is possessed by the Masons, they propose to present it to the State of Virginia, only reserving to their order the right to meet around the tomb of their deceased brother once every year, to celebrate his imperishable deeds, and to keep alive his great name.—*Dispatch.*

Hot Weather.—On Saturday and Sunday week the weather was intolerably hot at Cincinnati. The thermometer ranged from 98 to 100 degrees in the shade. Five men were run struck on Saturday, one of whom died, and another was hopelessly ill. The heat is said to have caused the death of several horses, mules and cattle. On Sunday afternoon the city was visited by a violent thunder storm.

On Saturday week the large new barn of Mr. George Snyder, about 24 miles north of York, with all its contents, was destroyed by fire. It was filled to the utmost of its great capacity—the contents, being all the grain of a large yield upon 100 acres, about 200 tons of hay, wagons, threshing machine, ten barrels of whiskey, and other property. As the grain was housed before it was perfectly dry, the fire may have originated from spontaneous combustion. The loss is estimated at \$10,000—partially insured.

The Next House of Representatives.—Elections of members of the House of Representatives of the next Congress have now been held in all the States of the Union with the exception of Maryland, Georgia, Mississippi and Louisiana. The Washington Union makes the result as follows: Democrats 110, Republicans 91, Americans 8, vacancies 2. Supposing no changes to occur in the remaining four States where elections are to be held, the next House of Representatives will stand as follows: Democrats 125, Republicans 91, Americans 10, vacancies 2. The House consists of 234 members—118 constituting a majority. The democratic majority, therefore, will be 16—subject, however, to any change that may occur in the States yet to vote.

A Talented Congress.—A correspondent of the Lowell Journal says, in looking over a list of the members of the Twenty-third Congress, which commenced December 2, 1833, and closed March 2, 1835. I was somewhat surprised at the number of members who have filled high positions under our Government. Six members of that Congress, J. Q. Adams (previous), Tyler, Polk, Fillmore, Pierce and Buchanan, have occupied the Presidential Chair. Five members, Messrs. Calhoun, Johnson, Tyler, Fillmore and King, have been Vice Presidents; and no less than eight members, Messrs. John Q. Adams, Henry Clay, John Forsyth, Daniel Webster, John C. Calhoun, James Buchanan, John M. Clayton, and Edward Everett, have filled the office of Secretary of State. Thirty-two members have been Governors of States, and twenty-three members of the House have since served in the Senate.

The California Democratic State Convention has nominated Hon. J. P. Weller as candidate for Governor, and the Republican Convention Edward Stanley, as a candidate for the same office.

St. Louis, Aug. 11.—Advices from Kansas to the 8th inst. have been received. Gov. Walker had returned to Lawrence with the U. S. troops; the apprehension of an Indian attack having proved groundless. The election returns indicate nearly a unanimous vote in favor of the Tappan constitution.

End of the Abol Proceeding in Iowa.—The Tipton (Cedar county) Advertiser says: Now, since the hanging of Soper and Gleason, that county is free from the gang of horse-thieves which invested it, and "no more mobs will assemble—all is quiet." It states that "there is no disposition to resort to violence," and that "law holds an uninterrupted sway, supported by the great mass of the people."

Intemperance.—Sheriff Cary, in charge of the House of Correction in Lawrence, Mass., states that delirium tremens is becoming much more numerous than formerly. It is attributed to the immense amount of strychnine used in the manufacture of liquor at the present time. By using poison distillers get about fifty per cent. more liquor from a bushel of corn than they did formerly.

A Ghastly Domestic Scene.—A St. Francis correspondent of the Helena (Ark.) Democrat says that a snake den was discovered a few days ago, near Taylor's creek, in that county, containing upwards of two hundred and forty reptiles, thirty of which were large rattlesnakes, and the balance moccasins and blacksnakes.

In Wallbridge (Me.) a man sold some spirits to a young lad, who got drunk on them. The lad's sister informed the seller that if he did so again she would spit it for him. He sold liquor the second time to the lad, and the sister, as good as her word, attacked the man's rum cask and stove in the head, spilling the contents thereof. The neighbors have subscribed enough to purchase some silver spoons for her, on which they propose to have engraved a cask with the head sto in.

Coming Along.—M. Veruet has calculated the orbit of the comet recently discovered by a Berlin astronomer. It appears to be approaching the earth so rapidly that it will soon present a fine object to the naked eye. At present it is believed that it is not Charles the Fifth's comet, of which there has been so much talk, and destined to come into collision with the earth on the 13th of last month. Its position is in the constellation Perseus. The comet wonders can now start a fresh excitement.

An Agreeable Surprise.—A gentleman called on the deputy superintendent of police in New York, on Tuesday morning, complaining that he had been robbed of \$1,500 in bank checks and bills. The officer told him to search well before he accused any person, and in a few minutes the checks and bills were found in the lining of his coat, where they had slipped through a hole in the pocket.

Death of Ex-Senator Turney.

We have already announced the sudden death of Hon. Hopkins L. Turney, a member of the United States Senate from Tennessee from 1845 to 1851. A correspondent of the Nashville Union, at Winchester, Tennessee, furnishes the following particulars of his death:

Hon. H. L. Turney died of congestion about six o'clock, P. M., on Saturday, the 1st instant. He had spent the day in town attending to his business in the circuit court. About 5 1/2 o'clock he left for his home, 2 1/2 miles distant, in his usual health. His son, Peter Turney, and some other gentlemen attending court, walked with him about half a mile, when he left them in unusual fine spirits. About half a mile from that point he was found by one of his neighbor's negro boys sitting by a tree. He told the negro he was sick; to take one of his mules from his wagon and take him home. He went about half a mile, and told the boy to take him down; he thought he should die. The boy took him down and galloped to the house, a short distance, to give the alarm. A gentleman walking on the farm ran to him in time to see him breathe his last, but too late for him to speak.

A number of counterfeit \$5 bills on the York Bank, are in circulation at Harrisburg. They are said to be well executed, and liable to deceive even experienced judges of Bank paper.

A very distressing death of a mother and child by drowning, occurred in Peach Bottom township, York county, on Monday last. As the carriage of Theodore Welsh driven by Mr. W., or his wife's brother, and containing the driver, Mrs. Welsh and a child, was crossing Scott's Run, near the house of Geo. M. Hickman, in that township, the stream had become so much swollen by the previous rains that the carriage and horse were carried away by the stream, drowning Mrs. Welsh and the child; and when the vehicle was gotten out some distance below, the driver was nearly dead.—*Wrightsville Star.*

ILLINOIS, this season, will produce two hundred and eighty million bushels of grain, more than ten bushels for every man, woman and child in the United States. This will knock the Corn Exchange speculators into the middle of next year.

A Mobile Shot Dead.—On the night of the late election in Iowa, a mob attacked the office of the Herald of Oskaloosa, Iowa. A man named Bowen undertook to head the mob and forcibly enter the building. Mr. Brown, the proprietor, who was sitting in the second story, without even a light, fired upon them just as they were forcing open the door, and Bowen fell mortally wounded and died in twenty minutes. The rest of the cowardly mob immediately took to their heels.

The Niagaraian Filibusters in New York city are said to be in a state of great destitution, unable to obtain work, without means to carry them home, and compelled to depend on charity or odd jobs for the means of subsistence. Many of them sleep on the grass in the various public parks, and some fifty of them were seen assembled on the Battery on Friday, presenting a miserable picture of destitution.

Jonathan Groves, of White Clay Creek Hundred, Del., lost six valuable horses, worth at least \$1,000, on Monday last. They were lying under a tree in the field, when it was struck by lightning, and were all instantly killed. Three of them were valued at \$200 each.

Mosquitoes.—These little pests, it is said, have been so thick on Long Island that the work men on the Brooklyn water works were compelled to quit work and flee to their houses. Horses and cows that ran in the field are almost killed with them.

The Cotton Trade.—Out of 900,000,000 lbs of cotton imported into Great Britain last year, no less than seven hundred million pounds were from the United States. A rise of one penny on the pound in the price of cotton involves a national loss to England of \$20,000,000 to \$30,000,000. The dependence of England on the United States for supply has increased from 45 per cent. of their consumption in 1801, to 80 per cent. at the present time.

Extraordinary Meteor.—Letters from Bagdad announce an extraordinary fall of rain on the 14th June at that place, which, from its bloody hue, gave the surrounding country the appearance of a battle-field. The meteor seen at Malta on the 14th of June was likewise observed on the same day throughout Syria and Palestine; and letters from Torbizon, Samsoun, Sinope, Constantinople and Smyrna, report a heavy fall of rain, and tempestuous weather on that day, to the great alarm of the inhabitants, who had for some weeks been anxiously looking out for the comet crash. The evening of the 13th of June was a remarkable meteor and whirlwind in New York.

An Active "Business Place."—It is stated that at the city of Keokuk, Iowa, since the commencement of the present season, 8,000,000 feet of lumber, 2,000,000 shingles and 4,000,000 laths have been used. The calculations are that the consumption will reach 25,000,000 feet of lumber, 20,000,000 of shingles, and 20,000,000 of laths. The business, so far this season, has doubled that of the last. Thirteen hundred carpenters find constant employment in the carpenter shops of the city; brick kilns keep a live of nine hundred men as busy as bees, and there are thirty brick kilns, which have already manufactured and sold 6,000,000 bricks. The amount will reach 60,000,000 for the season, all of which will be used.

Train for Salt Lake.—There has just been fitted out at Atchison, Mo., one of the largest of those caravans or "trains" by which the commerce between the State and the Great Salt Lake Valley is carried.

The train consists of seventy-three wagons, 876 oxen, and ninety men. It is laden with 140 tons of assorted merchandise, adapted to the Salt Lake trade. Some idea of the immense value of the goods carried by this train may possibly be had when we state that the freight alone upon them from here to Salt Lake will exceed \$40,000. Similar trains are also fitting out at Weston, Leavenworth, Kansas City, Independence, &c.

Shocking Death.—A son of J. Knox Walker, who was private secretary to President Polk, was killed on Saturday week, at Memphis, Tenn., by accidentally falling from his pony. His foot became entangled in the stirrup, the horse taking fright, ran at full speed, and mangled him in a dreadful manner. He was about 12 years of age.

Death from Fright.—Mr. John Janeway, an Englishman, and a very reputable citizen, employed as miller at Mars' Flouring Mill, about eight miles southwest of the city, came to his death yesterday morning very singularly. Mr. Janeway was entering the city in a buggy, when, at the crossing of the Southwest diagonal and the Terre Haute Railroad, his horse took fright at a locomotive, and, backing, wheeled the vehicle around in the direction of the track. The locomotive, running slow, was instantly brought to a stand still, but Mr. Janeway, under the terrible idea that he was about to be crushed by it, died—frightened to death. When his horse was caught and checked by the bystanders, and the lines were taken from his hands, he was not yet done breathing. Medical assistance was immediately called, but it was unavailing.—*Indianapolis Sentinel, Aug. 4.*

An Avalanche of Corn.—The Buffalo Commercial, of Wednesday, says: "A perfect avalanche of corn may soon be expected. By reference to our marine column, it will be seen that 630,000 bushels are now on the way from Chicago—the largest amount ever known at one time—for this port."

A Double Murder.—A colored barber, named Wm. H. Smith, in St. Louis, in a fit of jealousy, on Monday night, brutally murdered both his wife and mother-in-law, and then made an unsuccessful attempt to take his own life. He stabbed himself in three places.

Poisoned Hay.—A farmer in Ashtabula, Ohio, complains that he has lately lost seven head of cattle by their eating poisoned hay. It appears that the poison is in the form of ergot, a smutty excrescence which grows on the June grass. It grows as it does on rye, in the shape of a diseased and enlarged seed of dark color, varying from the size of a wheat grain to three-fourths of an inch long.

Mortality Among U. S. Senators.—Out of the fifty-nine members of the Senate during the last Congress no less than five have already passed away, viz.: Messrs. Clayton, of Delaware; Bell, of New Hampshire; Adams, of Mississippi; Butler, of South Carolina; and Rusk, of Texas.

A Clerical Horse Jockey.—A few days since a minister in Seneca Falls, N. Y., hired a livery horse and wagon to go a journey. He was absent two days, swapped horses six times, and came back to the stable with the same horse he took out, having made \$100 by his operations.

A Little Dog Saving a Boy's Life.—Geo. F. Berry, a boy thirteen years old, living in Kinder's block, went out Monday morning to pick blue berries, beyond Rock Rimmon. He had been out but a short time when a six foot snake of a dark hue and a red stripe around his neck, jumped at him from a bush, and wound twice around his body, fastening both his arms in his coils, being squeezed hard enough to prevent scream or move. The dog seeing his master's life in danger, rushed to his aid, biting and tearing a strip off the snake's back. The boy got relieved from the deadly grasp and took to his heels; but the snake coiled around the dog, and would have crushed him if he had not fought like a tiger. Both found home safe again. The boy complained not of hurt but fright.—*Manchester (N. H.) American.*

The Oldest Man.—A correspondent of the St. Louis Republican, writing from Elwood, Kansas, says:

One who lives on his claim near the edge of this city, is perhaps the oldest man in America. He is Mr. James O'Toole. He was born in the county of Donegal, in the north of Ireland, some where about the year 1780. He was an old man in the Irish rebellion in 1798, when, becoming implicated with Lord Fitzgerald, he fled his country, to seek freedom in our then young republic. His life has been checkered with many changes. He has been tossed about among various scenes and by many diverse circumstances. He moved to St. Louis, thirty years ago, and established the first brewery there. He moved to the Platte Purchase in 1838, and lived in Buchanan county, near Bloomington, until two years ago, when he came to Kansas and made a pre-emption, and he can now walk eight or ten miles with ease, to visit his friends or attend to his business affairs. He says his age is about one hundred and twenty-five years.

TOWA CITY, according to a local census just taken, has a population amounting to 7,300, or, adding its suburbs, 9,000. This is a large gain since last year.

Shocking Affair.—Four Young Ladies Drowned.—It has already been briefly mentioned that on Thursday evening of last week seven young ladies residing in Waterville, Me., went into what is called Crummett's Stream, about one-fourth of a mile from Waterville village, for the purpose of bathing, and in a very few moments four of the seven found a watery grave.—The Boston Herald says:

The bank is quite steep, and it is supposed one or two of them ventured beyond their depth, and the others were drowned in attempting their rescue. The alarm was instantly given, and three of the bodies were found a short distance from the spot, floating on the surface of the water, and the other was found in the stream. They were not in the water over thirty minutes, and although efforts were made for several hours to resuscitate them they proved fruitless. Two of the young ladies who were drowned were daughters of Mr. B. F. Soule, and the other two were daughters of Mr. Grant, a piano forte manufacturer, now at work in Boston, whose family reside in Waterville. Mrs. Grant, the mother of two of the girls, rushed into the water to rescue them, and was herself saved with great difficulty, nearly exhausted. Their ages varied from eleven to fourteen. The place where the accident happened is a secluded one, and the young ladies have been in the habit of bathing there for several years.

Everett on Mount Washington.—Edward Everett thus describes a view of Mount Washington, in New Hampshire:

"I have been something of a traveller in our own country—though far less than I could wish. And in Europe have seen all that is most attractive, from the (fishlands of Scotland to the Golden Horn of Constantinople—from the summit of the Pyrenees to the Pinnacle of Vesuvius—but my eye has yet to rest on a lovelier scene than that which is discovered from Mount Washington, when on some clear, cool, summer's morning, at sunrise, the cloud-curtain is drawn up from nature's grand proscenium, and all that chaos of wildness and beauty starts into life—the bare, gigantic tops of the surrounding heights—the precipitous gorges—a thousand fathoms deep, which foot of man or ray of light never entered—the sombre misty forest—the mossy and rocky wall, weeping with crystal lakes and peaceful villages below—and in the dim, misty distance, beyond the lower hills, faint glimpses of the sacred bosom of the eternal deep, ever heaving up with the consciousness of its own immensity—all mingled in one indescribable panorama by the hand of the Divine Artist."

The Atlantic Telegraph.—The New York Journal of Commerce, in descending upon the probability that the enterprise of the Atlantic telegraph will be crowned with success within a few days from this time, says:

"It has been determined that the first message across the ocean, in case of success, shall be 'Glory to God in the highest, and on Earth peace, good will toward men.' This will probably be followed by Queen Victoria's compliments to our President, and, after his reply, the line will be open to the public for messages of not more than twenty words, at fifty shillings the message, or say 62 1/2 cents a word."

The Journal thinks the merchants must concert an arrangement among themselves by which they will be kept advised of every change in the European market. It can hardly be expected that the press can bear the whole expense.

Curious Breach of Promise Case.

Quite an interest has recently existed in Southern Indiana, says the New Albany Tribune, on account of an alleged breach of promise charged against the Rev. T. B. Geary, of Liberty Circuit, by a respectable young lady of Madison. According to the Indiana American the circumstances of the case were about as follows:

Mr. Geary was entertained during the late session of conference by the family of which this young lady was a part. As an acknowledgment of the kindness shown him during his sojourn, he sent her the Ladies' Repository for the current year. On its receipt he wrote him a letter, enclosing him a book-mark, which letter was answered, with thanks for the token, and there he thought the correspondence ended. Not so the young lady. She alleges she received some fourteen letters from him, all of which she answered in due time, in which, on his part, proposals of matrimony were made, which were accepted by her, and the time of the marriage fixed at about the middle of April. A few days before the time fixed she alleges that she received another from the same hand, informing her that he was dead, enclosing a box of hair and giving his dying words, &c. She soon ascertained that he was not dead, and had charges preferred against him before the presiding elder. Upon an investigation only six letters were produced, and these were proved to be forgeries. Of course Mr. Geary was acquitted. It is believed the young lady is innocent of any complicity in the matter.

The Teeth.—At the Dental Convention in session last week at Boston some of the Dentists asserted that the main, if not the sole cause of defective teeth was the use of saleratus and cream of tartar in the manufacture of bread, and Dr. BAKER fully agrees with the facts which it stated, and gave the result of some experiments which he had made by soaking sound teeth in a solution of saleratus. The teeth were destroyed in fourteen days. Mr. SPAULDING, of St. Louis, did not believe that alkali injured teeth, but acknowledged that saleratus did. Saleratus, in his opinion, was not an alkali. Dr. KENDRICK, of New Orleans, considered the great means of keeping the teeth healthy was to keep them clean.

ACCOUNTS from Texas stated that a family of six persons, residing in Bell county, Texas, were burned to death a few days since. Their house was surrounded by a cedar brake, which took fire from some cause, and before they could escape were burned fatally.

A Severe Relapse.—A Long Branch correspondent of the Trenton Gazette gives an account of a rebuke administered to a party of fashionable at that place. Gov. Newell, of New Jersey, and his wife, having arrived at the Mansion House just at the dinner hour, entered the dining hall before Mrs. N. changed her attire. The party alluded to, immediately, not knowing her, made audible remarks on her appearance, and spoke indignantly, because the waiters, to whom Gov. N. was known, waited on him. Various insulting allusions were made in the table conversation. In the evening, when Mrs. N. appeared in the parlor in full dress, she was saluted by a gentleman who appeared to be a friend of the ladies in the fashionable party, and who, subsequently, on their inquiry, informed them who Mrs. N. was. They immediately sent apologetic apologies, which she refused to receive, not on account of personal resentment, but because their conduct exhibited them as persons not fitted to associate with genuine ladies, and she would not recognize them as such.

Another Railroad Story.—The "big jump" lately noticed, has been outdone by a cattle drover belonging to Ohio who came over the Lake Shore Railroad with his stock a year or two ago. In passing slowly over one of the high bridges on that road, the cars got off the track. Our drover had plenty of time to get out, "but would not leave his sheep and oxen," and so went down with them about seventy feet. The other passengers expecting to find his mangled remains at the bottom of the precipice, hurried down, and saw him emerging safe and sound from the door of the car. Upon being asked if he was hurt, he said "no, but he wouldn't have been so scared for five dollars." The Railroad company settled with him by the payment of five dollars for the fright, five more for detention, and a dollar and a half for knocking off a horn of one of his rams, and he proceeded on his journey, thinking himself a lucky fellow and the corporation liberal and whole-souled to an extraordinary degree.

A Royal Hairdresser.—Mr. Isidore, the Queen's coiffeur, who receives £2,000 a year for dressing her Majesty's hair twice a day, had gone to London in the morning, meaning to return to Windsor in time for toilette, but on arriving at the station was just five minutes too late, and saw the train depart without him. His horror was great, as he knew his want of punctuality would deprive him of his place; so he was obliged to take a special train; and the establishment, feeling the importance of his business, put on extra steam, and whisked him the eighteen miles in eighteen minutes for £18.—*Railway Journal.*

Never do that in prosperity whereof you may repent in adversity.

R. R. A REMEDY FOR YELLOW FEVER.—Let us rejoice that science has at last succeeded in discovering a remedy that will not only cure, but will prevent attacks of Yellow Fever, even when the population is raging in its most terrible form. Yellow Fever can be as easily, safely and as successfully treated with RADWAY'S READY RELIEF AND REGULATORS, as any other fever of common disease. Dr. Frederick B. Pige, of Miss, a well-known and popular medical writer and practitioner in the Tropics and Southwestern parts of the United States, cured hundreds of cases, even when the terrible Black Vomiting appeared, and he strongly urges the Medical Faculty to use the Ready Relief as a preventive. By its use, says the learned Doctor, "A multitude of lives will be saved."

Let them, nurses and all who attend on the sick, provide themselves with these great remedies. RADWAY'S READY RELIEF will protect the human race against Yellow Fever, and all other malignant fevers. It will cure Cholera, Dysentery, Biliousness, Fever and Ague, Tooth Ache, Head Ache, Neuralgia, and all torturing pains, aches and infirmities.

RADWAY'S READY RESOLVENT will fill the veins with a new and healthy stream of blood, and cure quickly Boils, Pimples, Sores, Itch, Leg, all skin Eruptions, Scars, Bronchitis, Lung Diseases, Ulcers, Tubercles, Bad Coughs, Dyspepsia, &c.

RADWAY'S REGULATORS are to be taken whenever "You do not feel right," or that "you feel out of sorts," or have too much bile, Costive, &c. One of RADWAY'S REGULATORS is sufficient to restore regularity to the irregular organs.

THE BIG SAFE.
Measuring 54 feet high by 44 feet wide, and weighing 4,300 pounds, has been attracting much attention at the office of the *Farmer's and Mechanic's Savings Institution* in S. W. corner of Public Square. Every body in town has been to see it. Our friends from the country have been, and are still, dropping in to see this, the largest safe brought into the County.

This Safe furnishes another ground for confidence to depositors. The security for the deposits they make is of the same character and as extensive as that afforded by a Bank to its depositors—the stockholders in the one and the other being in the same manner liable. The safe keeping of the money and the security to depositors thus afford a double safeguard to those thinking of depositing their money here, instead of lying idle, they will produce interest in the Savings Institution.

"WOODLAND CREAM"—A Pomade for beautifying the Hair—highly perfumed, superior to any French article imported, and for half the price. EAGLE HOTEL.

GETTYSBURG, PA.
JOHN L. TATE, PROPRIETOR.

THIS old established and popular House, situated on the corner of Chambersburg and Washington streets in the beautiful and thriving town of Gettysburg, has recently undergone extensive and important repairs, which render it one of the most spacious and handsome Hotels in the interior of the State. Another story has been added to the entire building, front and back, making it now a three-story edifice of handsome exterior. The interior has undergone a thorough series of repairs, being handsomely papered and painted, and arranged in the modern style. The proprietor and his assistants spare no pains to render guests comfortable.

THE TABLE is at all times supplied with the best of the market affords.

THE BAR will be found to contain an excellent assortment of liquors of all kinds. THE STABLES are in charge of an experienced and careful Order.

The Livery business is still continued.—Horses and carriages always to be had at reasonable rates.

The near completion of the Gettysburg and Hanover Railroad renders the place easily accessible, and no more pleasant resort from the heat and dust of the city can be found.

The Eagle Hotel possesses superior accommodations for families or parties. Charges moderate.

The proprietor hopes, by his long experience in the business, to make the Eagle in all respects a first class Hotel, and by personal attention to the comfort and convenience of his guests, to merit and receive a liberal share of the public patronage.

A VALUABLE FARM AND MILL PROPERTY AT PRIVATE SALE.

THE undersigned, in consequence of advancing age, and a desire to retire from business, offers for sale his valuable Farm and Mill Property, situate on Marsh Creek, Adams County, Pa., partly in Cumberland and partly in Franklin townships. The Farm contains

172 ACRES of first-rate Land, with a full proportion of excellent Meadow and Timber. The improvements consist of a TWO

DWELLING HOUSES, a first-rate Bank Barn, a large Cooper Shop, and other out-buildings; a thriving young Orchard of choice fruit, and other improvements. Also, a superior

GRIST AND SAW MILL, not surpassed by any in the County for completeness of machinery and advantageous location. The Mill is 55 feet by 54, with four floors, 3 pair of Burrs, a pair of Allegheny Chopping Stones, with two powerful water wheels of 14 feet diameter, and all the machinery requisite for a first class Merchant Mill. The stream on which the Mill is located (Big Marsh Creek) is a very constant stream, the Mill having been able to supply customers in grinding during the dry spells. The Mill was built in 1840, and all the machinery is new.

It is unnecessary to enter into a lengthy description of the property, as persons desirous of purchasing a property of this kind will examine for themselves. Any person wishing to view the premises will be shown the same by the subscriber residing thereon. The Mill is within three and a-half miles of Gettysburg, at which place a Railroad is being built to connect with the Atlantic, leading to Baltimore and Philadelphia. It is located in the midst of a fine country and can command any amount of custom.

The property can be purchased on reasonable terms, advancing age being the only motive inducing the subscriber to sell. Any person wishing to purchase is, invited to call and examine the property. I think he will see the best Mill in Adams county.

It is not sold by the 1st of October next, the Mill and Farm will be offered on the same terms.

Consumption Conquered!

HAVING profited by the experience of nineteen years, as nurse in the Pulmonary department in one of the principal Hospitals of the city of London, I rejoice in being able to offer a speedy and permanent cure for that most fatal of all diseases, CONSUMPTION.

I long ago became convinced that *drugging* the stomach, for effect upon the Lungs, was an absurdity; and, that the only way to reach these organs, was by the Lungs themselves.

then was, through INSALATION. Inhalation enters the lungs through the air passages, coming in direct contact with diseases, relieves pain, allays coughs, neutralizes and dissolves the tubercular matter, causing a free and easy expectoration, and rapidly healing the lungs, producing strength, cheerfulness and speedy recovery. I have effected many remarkable cures of the Lungs and Throat, and can safely assert that Consumptions may be restored to vigorous health, and frequently even when pronounced in the last stages.

That I have been successful in my experiments, I give the following extract from the "London Medical Advocate" as evidence:—
Mrs. Wilson, late principal nurse in the city hospital, and discoverer and inventor of this **CONSUMPTIVE INFUSER**—a discovery in the medical world of more value to mankind than all the gold mines of Australia and California—is about leaving England for America,—where her only son has made his home.—
The many Consumptives restored to health by her valuable discovery, on this side of the At-

ance, will, we feel assured, ever remember
 us as their saviour in this world."
 "To enable all to obtain the *INNAUGURAL*, I
 have set its price at the extreme and low sum of
Five Dollars on the receipt of which, and
 address of the applicant, I will send it, with
 directions for use, per Mail or Express.
